-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claims 1-7 are pending. No drawings were filed. Foreign priority was claimed.

Information Disclosure Statement

The examiner has considered the IDS.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 contains the language 'the applicationformulae 1-48 in preparing protein...' which is confusing. It appears applicants are claiming a 'compound'. It is suggested the claim be written as such.

Claims 1-2 contain the term 'derivative' which is ambiguous since derivative is referring to material ----derived---- from the named formula while applicants' material is the claimed formula. Therefore, it is suggested that the term 'derivative' be replaced with ---compounds---.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The claim merely lists the one step of the process. It is clear from the specification that there are several steps. It is suggested that the necessary process steps be inserted into the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Bi et al (2000) that teach species according to the invention that target protein kinase C. See abstract; page 2669 compounds of formulas 5-8; page 2670 formulas 9,11,13,10 for example.

Claims 3-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Bi et al (2000) that teach the claimed process for preparing the compounds. See results and discussion section at page 2669; page 9 of the specification. Note the scheme is the same.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Bi et al (2002) that teach species according to the invention. See page 24 formula 12 for example.
